

Tract is a short book or pamphlet dealing in plain, forceful language with some timely problems of practical religion.

Since the seventeenth century it has been used extensively in Europe and America to spread Christian knowledge among common people.

THE DENTIST SAYS:

ERNEST J. TARR, D.D.S.

DENTURE TEETH VARY FOR EVERY PERSON

"Will I be able to match my own natural teeth when I obtain a set of new dentures?" asks a Torrance matron.

Teeth are made in a great variety of colors and shapes. The various tooth manufacturing companies, after many, many years of research, have tried to put teeth on the market that would match up as closely as possible with every shape, color and size of human teeth. The color of teeth to fit an individual is determined by the age, color of hair and complexion of that person.

Teeth are made along three basic shapes: Square for people with square faces; tapering for angular shaped faces, and

avoid for people with round faces. Of course, there are all kinds of variations in these three groups, but one can rest assured that there are teeth made that will match the shape of your face in a pleasing and harmonious manner.

If you have any questions concerning dental problems, you want answered in this column, write to:

WAYNE DAVID, young Californian who was chosen outstanding Future Farmer of the eleven Western states, discusses soil and water conservation with Thomas Mitchell on the new TV show, "Mayor of the Town," during National Future Farmers' Week.

Trucks Offered

Two five-ton dump trucks were made available to the city by the Long Beach Naval shipyard during the recent flood. The trucks were requested by City Manager George Stevens.

WARM LAKES

In February, 1947, during flight operations of Operation Highjump, navy flight crews discovered warm lakes in the Antarctic in an area where the ice is known to be hundreds of feet deep.

'Mayor Of The Town' To Salute Farmers

One of the features of National Future Farmers' Week, which starts February 19, will be a salute to Future Farmers in Thomas Mitchell's state-wide television series, "Mayor of the Town."

Wayne David of Kern County, who in 1954 was chosen as the outstanding boy of the eleven western states to represent this region for his work in soil and water management, will be interviewed by Mitchell and will tell television audiences throughout the State of the program and accomplishments of the Future Farmers' organization in the field of conservation.

"Mayor of the Town" which is sponsored by Richfield each week to promote a better understanding of the importance of natural resources to the health, wealth and pleasure of every Californian, stars Mitchell as the mayor of a typical American city.

In this week's episode the mayor becomes involved in a political hassle when an imbit-

tered judge attempts to force passage of a bill whereby all stray dogs would be caught and destroyed.

How the mayor resolves the problem will be of heart-warming interest to everyone who has ever owned and loved a pet. The program will be heard in this area on station KTTV on Wednesday, February 22 at 9:30 p.m.

ANCIENT CLIMATES

Bones of small animals such as rodents, lizards, frogs, and song birds reveal more about the climate of ancient times than the remains of mastodons, mammoths, and sabre tooth tigers, stated Bayard Brattstrom of the University of California, Los Angeles.

Man Dies In Crash

One driver died and another escaped with shock and head injuries, none of which were described as serious, when a gravel truck and car collided Friday at Figueroa and 174th st. The truck driver, Ernest W. Howard, 30, died while John G. Garrett, 36, of Los Angeles, survived the accident.

Basketball Games Tues.

The following basketball games will be played Tuesday, February 21, at the Torrance high school's boys' gym: Longren Aeros vs. Kenny's Shoe Repairs, 6:50 p.m.; Burchfield Rug Works vs. Roy's Service, 7:55 p.m.; and Knoll's drug store vs. Lutheran men, 9 p.m.
